

YURII KASKO

Ukraine, hellokasko@gmail.com, @whoisyurii, [Linkedin](#)

SUMMARY

Front-End Developer with 4+ years of experience building scalable, high-performance web applications using Vue.js (Vue 2 & Vue 3). Specialized in frontend architecture, reusable component systems, and UI performance optimization. Experienced in developing complex dashboards, working with state management (Pinia, Vuex), and modern UI frameworks (Vuetify, Quasar). Strong focus on code quality, testing (Vitest), and delivering user-centric solutions in agile teams.

WORK EXPERIENCE

Front-End Developer — Quardex (Ukraine)

Jul 2021 – Apr 2025

- Designed and maintained scalable frontend architecture for dashboard systems
- Built a reusable component system used across multiple modules
- Integrated charts using Chart.js and AmCharts for data visualization
- Improved UI performance and responsiveness across key pages
- Conducted PR reviews and improved overall code quality

Front-End Developer — NSOC360 (Netherlands) (Contract via Quardex)

Sep 2021 – Apr 2025

- Developed UI for monitoring and analytics platform
- Worked with Vue 2 and Vue 3 in hybrid architecture
- Implemented and optimized state management (Vuex, Pinia)
- Collaborated with cross-functional teams in agile environment

Front-end developer, NDA Startup - Ukraine

Jun 2025 – Apr 2026

- Built frontend from scratch, including architecture and component system
 - Developed custom form components and validation logic
 - Worked closely with product team to define UI/UX
 - Delivered production-ready frontend independently
-

KEY ACHIEVEMENTS

- Built a configurable dashboard system supporting multiple data sources
 - Migrated a large Vue 2 project to Vue 3
 - Introduced unit testing using Vitest, improving code reliability
 - Designed scalable frontend architecture for long-term project growth
 - Successfully delivered a startup frontend from scratch to production
-

TECH STACK

- Frontend: Vue 2, Vue 3, JavaScript, TypeScript
- State: Vuex, Pinia
- UI: Vuetify, Quasar
- Charts: Chart.js, AmCharts
- Testing: Vitest
- Tools: Git, Docker, Figma, Jira, WebStorm, VS Code
